New Additions for 2010

The **Quannon 150** is the sexiest KYMCO to date. This small displacement, entry level sport bike is ideal for an effortless ride. The lightweight Quannon is sure to fit perfectly into an urban lifestyle, is easy to handle and is equally light on fuel, insurance, and the environment. It is, on the other hand, loaded with great features such as a smooth five speed transmission, front and rear disk brakes for superior braking power, a digital instrument cluster, and 110/80-17 front and 140-70-17 rear tires for excellent stability and great grip. The 150cc 4-valve highly fuel-efficient engine has all the power to get around town with plenty of fuel to spare.

MSRP: \$3495

The **Super 8 2T** turns heads, there's no denying that. Sports 14" tires for confident riding with a high stance and low centre of gravity create a sport bike feel and offer great handling capabilities. The two stroke engine offers superior acceleration and the large front disk brake provides unmatched stopping power - the perfect combination for an exhilarating ride!

MSRP: \$2845

BECO Motor International Inc.

The **Maxxer 375** is the perfect choice for a sport/leisure ATV. With the “go anywhere” capability of a utility ATV, this uniquely designed quad aims to incorporate strength and sport into all of its details, resulting in a modern machine that maintains race quad styling, without sacrificing handling or suspension.

MSRP: \$6445
