KYMCO Canada Web Site Re-Launches!

Content driven, rich photo galleries, additional features such as lifestyle pages, testimonials and current news – the new KYMCO Canada web site offers visitors an easy to navigate experience.

KYMCO Canada understands that the Web is an important vehicle for directly communicating with consumers. Whether you're looking for information on our on road products <http://kymco.ca/onRoad.php>, our off road products <http://kymco.ca/offRoad.php>, or general information on how to get into scootering <http://kymco.ca/lifestyle.php>, visitors will find what they need with ease! And our new and improved dealer locator <http://kymco.ca/dealerLocator.php> makes it easier than ever to find an authorized KYMCO dealer in your area.

We hope to have visitors interact with the Web site and invite KYMCO riders across the country to send us testimonials. Your story could be featured on our testimonials page http://www.kymco.ca/lifestyle_Testimonials.php. We have also created an Official KYMCO Canada Group on Facebook to help KYMCO riders and scooter and ATV enthusiasts alike find one another on the well known social networking site.

We see this new Web site as a work in progress and will continue to keep it current and relevant to Canadian consumers. We invite you to stop in at www.kymco.ca and tell us what you think!
